

Health Economics for Developing Countries: A Practical Guide

By S. Witter, T. Ensor, M. Jowett, Thompson R.

Macmillan Education. Paperback. Book Condition: new. BRAND NEW, Health Economics for Developing Countries: A Practical Guide, S. Witter, T. Ensor, M. Jowett, Thompson R., This text is an introduction to health economics and finance for low income countries, which is easy to use and read and does not assume previous training in economics. It explains health economics in an accessible applied way using material from, and relevant to, developing countries. The focus is on practical use. Core areas are selected for health economists to study in detail, with brief discussions and suggestions for further reading of linked topics more commonly studied under other related disciplines, such as public health and health management. Each chapter introduces a topic, then by the use of question and answer sessions between a group of (humourously named) characters in a fictional country, the relevant material is covered in a lively way. The chapter ends with a summary, practice exercises for the reader and a list of references and suggestions for further reading. There is a glossary of health economics terms to help the reader. The authors are experienced teachers and consultants in international health economics, based at the Centre for Health Economics at the University...

Reviews

This publication may be really worth a go through, and a lot better than other. It really is written in simple terms and never difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.
